

From their uplink, one can see the valley where David slew the giant Goliath, and as I stood at the base of one of their giant dishes, I thought, *How fitting that God is still slaying giants from this valley! As the truth is beamed around the world, the devil is being slain in the hearts of millions of people!*

Last year, shortly before the General Conference Session in Atlanta, Georgia, our old satellite for North America, AMC-4, for want of a better word “died” and was replaced by G-19. At that time a number of “new” Adventist television ministries came on the new satellite along side 3ABN.

Some of our viewers assumed that these new Adventist ministries were reaching billions of souls with their network, like 3ABN does. However, some of these new ministries are only on the one satellite -- G-19. The G-19 satellite reaches the Adventist community, but its coverage only reaches an estimated 5 million English-speaking homes, and you must have a satellite dish to receive the signal. Please don't be misled by those who are only on G-19 and who are primarily reaching only the Adventist community, but are not reaching outside North America, as 3ABN is doing.

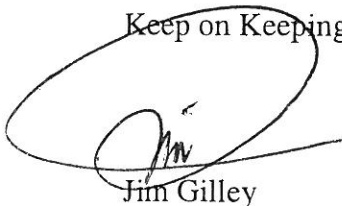

I realize this letter is rather direct, but some of you have spoken to me about this misconception, and I felt I had to share the truth with all of you.

As this year rapidly comes to a close we especially need your prayers and financial support. Will you please continue to help 3ABN reach the *whole world* with your end-of-the-year giving?

Thank you so much for your prayers, your love, and your faithful financial support, but as the urgency to warn *the world* increases, we especially covet your prayers!

Please pray for Danny as he is preaching in Australia. He joins me in this appeal.

Keep on Keeping on with Jesus,

Dear 3ABN Canadian Family,

We appreciate and love our viewers in Canada! Your many phone calls, letters of encouragement, prayers, and financial support mean so much to us. The world desperately needs the good news of the gospel of Jesus Christ, and today's technology makes it possible to reach the masses like never before.

We praise God for the testimonies we receive from Canada, confirming the effectiveness of 3ABN's broadcast. Many souls from Canada have been brought out of darkness and into God's glorious light through the work of the Holy Spirit and our efforts to lift up Jesus Christ.

The support you've given 3ABN through Three Angels Canadian Communication, our sister organization in Canada, has enabled this message to be sent around the world.

There's no Adventist television network that provides anything near the worldwide coverage 3ABN has, and this is largely due to your faithfulness, and the faithfulness of all of our 3ABN supporters. By far, the greatest percentage of our support comes from North America, though we reach around the world with 9 satellites.

Recently I was in Israel and visited the RRSat company. I spent a day at their studio in Jerusalem, and then on site at their satellite uplink facility between Jerusalem and Tel-Aviv, where 150 satellite dishes are aimed at the sky. From there they broadcast over 600 channels from around the world, including four of ours—3ABN, 3ABN Latino, 3ABN Proclaim, and 3ABN International—24 hours a day. In fact, they beam our signal to multiple satellites.
